

KIOXIA

**Together,
we move
memory forward.**

Discover KIOXIA at embedded world DIGITAL
March 1st - 5th 2021

Embedded Flash Memory and Storage Solutions

Explore [KIOXIA](#) and its Embedded Memory Products at [embedded world DIGITAL](#) from March 1st to 5th 2021. KIOXIA will present its Embedded Memory product portfolio, in videos, live presentations and much more. For more information, please visit our [embedded world platform](#).

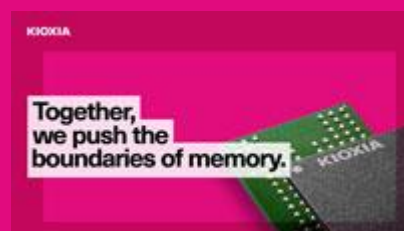

Moreover

You can discover our product highlights through our [virtual booth](#). Experience KIOXIA, and its Flash Memory and Storage solutions in a playful, modern environment. By evolving “Memory”, KIOXIA creates uplifting experiences and changes the world.

Explore KIOXIA's products at embedded world

Get to know KIOXIA's Flash Memory Storage solutions for business applications. Explore the product line-up of high-end NAND flash-based memory products and embedded Solid-State Drives (SSDs) such as:

- New product innovations like the **XL-FLASH** and the **XFMEXPRESS** device
- **Enhanced solutions for automotive deployment**
- 3D Flash Memory technology **BiCS FLASH**
- Industrial, NETCOM and consumer applications
- **A variety of PCIe NVMe SSD** products for mobile computing, workstations and boot drive tasks in compact environments
- **Ultra-light and power-efficient NVMe solutions** offering maximum system density, efficiency and simplicity
- **NVMe Cloud Specification ready** PCIe Gen.4 SSDs

The Inventor of Flash Memory

KIOXIA

**Together,
we make memories.**

KIOXIA Europe GmbH (formerly Toshiba Memory Europe GmbH) develops world-leading technology to unleash the potential of “Memory”. Under its new name, KIOXIA remains a storage leader today with its BiCS FLASH 3D Flash Memory Technology, focusing on innovation, quality and reliability.
